WARNING:

Petitioner/applicant is cautioned to avoid submitting personal information in documents filed in a patent application that may contribute to identity theft. Personal information such as social security numbers, bank account numbers, or credit card numbers (other than a check or credit card authorization form PTO-2038 submitted for payment purposes) is never required by the USPTO to support a petition or an application. If this type of personal information is included in documents submitted to the USPTO, petitioners/applicants should consider redacting such personal information from the documents before submitting them to the USPTO. Petitioner/applicant is advised that the record of a patent application is available to the public after publication of the application (unless a non-publication request in compliance with 37 CFR 1.213(a) is made in the application) or issuance of a patent. Furthermore, the record from an abandoned application may also be available to the public if the application is referenced in a published application or an issued patent (see 37 CFR 1.14). Checks and credit card authorization forms PTO-2038 submitted for payment purposes are not retained in the application file and therefore are not publicly available.

DECLARATION OF FACTS BY CHISATO NUMAOKA
PURSUANT TO 37 C.F.R. §1.378(c)

Sir:

I, Chisato Numaoka, declare that:

1. I have personal knowledge or have obtained information from or formed a good faith belief based on a thorough investigation of the facts set forth herein.
2. U.S. Patent No. 6,767,668 ("668") issued July 27, 2004.
3. The above-identified patent is assigned to Sony Corporation, 6-Chome, Shinagawa-Ku, 7-35, Kitashinagawa, Tokyo, Japan, and assigned Reel/Frame No. 012438/0898, recorded on January 8, 2002.

Atty Docket No.: 09792909-4804
U.S. Patent No. 6,767,668

4. U.S. Patent No. 6,767,668 expired due to a failure to pay the 3.5 year maintenance fee by July 27, 2008, which was the end of the six month grace period for the 3.5 year maintenance fee.

5. The entire delay in payment of the 3.5 year maintenance fee for U.S. Patent No. 6,767,668 since July 27, 2008 was unintentional.

6. Sony Corporation has an Intellectual Property Division whose functions include the prosecution, maintenance, and licensing of patents.

7. On December 1, 2005, Sony Corporation, informed its U.S. Patent counsel, David R. Metzger and SONNENSCHN NATH & ROSENTHAL LLP, to not maintain the patent.

8. However, during July to August, 2008 I was tasked with the responsibility of reviewing a large number of Sony Corporations patents to again determine which patents should be maintained. I had full authority to decide on behalf of Sony Corporation which patents should be maintained. My decision was to be final, subject only to ministerial approval for things like funding. I did not know when any fees for maintaining the patents were due.

9. By July 27, 2008, I determined that United States Patent No. 6,767,668 should be maintained.

9. My decision to maintain the '668 patent constituted an intention on behalf of Sony Corporation to maintain the '668 patent. I acted with full and proper authority within the Intellectual Property Division to identify the '668 patent as a patent to be maintained.

10 As a result, Sony Corporation by virtue of my full and complete authority to act on behalf of Sony Corporation, made a deliberate decision to maintain U.S. Patent No. 6,767,668 before July 27, 2008.

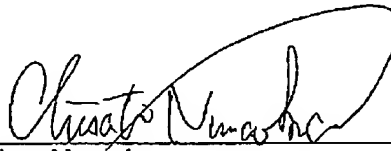

11. Unfortunately, due to the large number of patents being reviewed, the entire task could not be completed until end of August, 2008. Further, due a need to obtain approval for the funding of the payment of the maintenance fees, the decision to maintain the

Atty Docket No.: 09792909-4804
U.S. Patent No. 6,767,668

'668 patent was not communicated to Sony's United States patent counsel, David R. Metzger, Sonnenschein Nath & Rosenthal LLP, until November 4, 2008.

11. Since November 4, 2008, David R. Metzger has assisted Sony in filing the petition in connection with which this declaration is submitted..

12. I hereby declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under 18 U.S.C. §1001 and that such willful false statements may jeopardize the validity of the application or any patent issued thereon.
